

## Instructions for Packaging Books

1. Wrap the book in tissue paper (using no tape).

2. Then wrap it again in a heavy paper (like kraft paper).

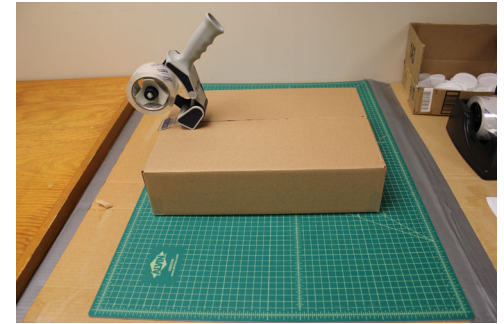

3. Wrap it several times in bubble wrap (the smaller bubbles provide better protection).

4. When packaging multiple books, wrap each individual volume in tissue and kraft paper. Then wrap all the books together in bubble wrap.

5. Place the wrapped book(s) in a strong cardboard box with additional padding around it (either more bubble wrap, styrofoam peanuts, foam, etc.).

6. Make sure that you slightly overfill the box with padding, so that when you seal it shut the contents do not shift at all and the box can not be crushed.
